SONGQI

INSTALLATION

Made from durable high speed steel, these bits fit any drill. Bores perfectly smooth, flat bottomed holes. More accurate holes at any angle.

1. Remove the drill bit from packaging.
2. Unscrew the chuck of the drill to fit the drill bits stem.
3. Insert the stem of the drill into the drill chuck.
4. Tighten the chuck until the drill bit is held securely in place.
5. Test the drill bit is secure by powering up the drill.
6. Drill into your desired surface.

Note: Make sure water is flowing around the drill bit tip when drilling with the Diamond Tip.
